Evaluation Process

Note: All scoring is out of 5, with 5 being the highest and 0 the lowest.

Assessment of clear articulation of the problem:

Has the responder clearly articulated the problem?

Assessment of Solution:

Has the responder clearly articulated:

- How they will address the solution?
- How the solution solves the problem stated above?
- What they will be able to achieve within the programme length – 12 months?
- A realistic vision is for the product going forward beyond 12 months?

Assessment of Commercial Justification:

Has the responder clearly identified:

- What makes their solution different?
- How they know their solution is different?
- The competition for their solution?
- How they will take the product to market and sell their solution?

IP Ownership – Yes/No
